Stormwater Management Program Annual report Six Minimum Measures Section

March 10, 2003 – March 9, 2004

Municipality Name <u>Town of Kent</u> SPDES Number <u>NYR20A346</u>

MINIMUM MEASURE 1: Public Education and Outreach in Stormwater Impacts

A. Narrative Overview:

The Town of Kent is required to implement a public education program to distribute educational materials to the community, or to conduct equivalent outreach activities about the impacts of stormwater discharges on waterbodies and the steps that the public can take to reduce pollutants in stormwater runoff. Implementation will include at a minimum the formation of cost-effective partnerships (governmental, environmental, civic, and industrial) that rely on existing programs and the use of educational materials and strategies relevant to local situations and issues that promote maximum coverage, and reach diverse audiences.

| B. Implementation of | f Best N | C. Activities Planned for Upcoming Year | | |
|---|----------------------------------|---|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| TECHNIQUES | | | | |
| Gather existing brochures, fact sheets, posters and other available materials from regional sources including Putnam County Soil and Water Conservation District, Cornell Cooperative Extension, New York City Department of Environmental Protection, New York State Department of Environmental Conservation and regional planning groups. This data shall target proper lawn and garden care, pet waste management, and proper disposal of household wastes. | X | | The Town of Kent has gathered existing materials from several sources regarding stormwater quality-related topics. The materials have been organized and are available to the public through the Town Clerk. | Create a webpage for stormwater management on the Town website including listing of available education materials, and notice of upcoming regional presentations and related stormwater management events. Mail a pamphlet on disposal of household wastes to all households in Lake Carmel Sanitation District (approximately 2,800 households). Print two brochures on a specific stormwater management practice. Make the brochures available at Town Hall, Highway Department, Police Department, Fire Departments, Library, and Community Center. Develop a collection of educational stormwater management materials. Organize the materials in a designated location in Town Hall which is available to Town staff and the public. |

| B. Implementation of | Best N | Manag | ement Practices | C. Activities Planned for Upcoming Year |
|---------------------------|----------|--------|--|--|

| targeted to pollutants | | | | |
| of concern. | | | | |
| Seek a formal | X | | The Kent Town Board passed a resolution | Follow up with Putnam County to formalize a |
| agreement with | | | requesting that the Town of Kent and Putnam | municipal agreement. |
| Putnam County to | | | County enter into a formal municipal agreement | |
| assist and facilitate the | | | which would define opportunities and | |
| Public Education and | | | responsibilities for joint implementation of the | |
| Outreach Programs. | | | requirements of NYSDEC SPDES GP 02-02. | |
| Review initial | X | | Initial SWMP's and/or NOI's were obtained and | |
| Stormwater | | | reviewed for the following MS4's: (T) of Carmel, | |
| Management Program | | | (T) of Putnam Valley, (T) of East Fishkill, (T) of | |
| (SWMP) for MS4s | | | Patterson, (T) of Southeast, (T) of Philipstown, | |
| discharging into the | | | NYSDOT, and County of Putnam. | |
| Town's MS4. | | | | |
| Seek formal | X | | Discussions have been conducted with some | Seek formal agreements with adjacent MS4s |
| agreements with | | | adjacent MS4's regarding coordination and | where coordinated or delegated efforts provide |
| adjacent MS4s where | | | delegation of tasks. No formal agreements have | a more effective SWMP. |
| coordinated or | | | been made to date. | |
| delegated efforts | | | | |
| provide a more | | | | |
| effective SWMP. | | | | |

MINIMUM MEASURE 2: Public Involvement/Participation

A. Narrative Overview:

Regulated municipalities are required to comply with state, tribal, and local public notice requirements, when implementing a public involvement/participation program. Implementation will include at a minimum soliciting broad public support of the SWMP, use of citizen volunteers, and coordination with other community and government programs to promote economies of scale.

| B. Implementation of | f Best N | C. Activities Planned for Upcoming Year | | |
|---|----------------------------------|--|--|---|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| TECHNIQUES | | | | |
| Provide public notice by way of announcements at televised Town Board meetings, for key events and upcoming Stormwater Committee meetings. | X | | The Kent Town Board has provided public notice prior to each stormwater committee meeting, and the Town has recently started televising the Town Board and Planning Board meetings. | Continue to provide public notice by way of announcements at televised Town Board meetings, for key events and upcoming stormwater meetings. |
| Provide public notice for all Town SWMP related public hearings by posting notice in official Town newspaper and post notice at Town Hall. | X | | Public notice was provided for the SWMP public hearing by publishing the notice in the official Town newspaper (The Putnam County Press) and by posting notice at the Town Hall. | Continue to provide public notice for all Town SWMP related public hearings by posting notice in official Town newspaper and post notice at Town Hall. |

| B. Implementation of | Best N | C. Activities Planned for Upcoming Year | | |
|---|----------------------------------|--|--|---|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| Provide full access to the public to review and request copies of all information collected and developed as part of the Town SWMP. | X | | The Town of Kent's initial stormwater management program draft report, as well as all materials gathered regarding stormwater quality related topics is available to the public at the Town Clerk's office. | Continue to provide full access to the public to review and request copies of all information collected and developed as part of the Town SWMP. |
| Hold public hearing on Town's initial SWMP. | X | | A public hearing was held by the Kent Town Board on September 22, 2003. | Hold public hearing on 1 st Annual Report on May 24, 2004. |
| Define the role of the recently created Stormwater Committee with respect to the Town SWMP. | X | | The Town of Kent Stormwater Committee's Mission Statement is provided in Section 2.1. | |
| Organize and conduct two yearly local Town waterbody cleanup events utilizing volunteers. | X | | Volunteers were organized and participated in a clean up with Putnam County, and again with the Lake Carmel Parks Department for cleanup around Lake Carmel. | Organize and conduct two yearly local Town waterbody cleanup events utilizing volunteers. |
| Utilize the Stormwater Committee monthly meetings as a public forum to facilitate the Town SWMP. | X | | The stormwater committee meetings are open to the public and has been instrumental in administering, implementing and tracking the Town's SWMP. | Continue to utilize the Stormwater Committee monthly meetings as a public forum to facilitate the Town SWMP. |

| B. Implementation of | f Best N | Manag | C. Activities Planned for Upcoming | | | |
|--|----------------------------------|-------|---|---|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | the past | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Year Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | , | | | |
| Identify Town stormwater contact person. | X | | The Town of Kent's stormwater contact is Town Board member and Stormwater Committee member Kathy Doherty. Contact can be made through Town Hall. | | | |
| Identify key contact person from each lake committee in Town to coordinate and publicize lake community public participation events. | X | | The list of key contact people from each Lake Committee in Town has not been finalized. | Finalize the list of key contact people from each Lake Committee. Develop a mailing list of key contact people from each in Town lake committee for distribution of Town SWMP information. | | |

MINIMUM MEASURE 3: Illicit Discharge Detection and Elimination

A. Narrative Overview:

Regulated municipalities are required to develop, implement, and enforce a program to detect and eliminate illicit discharges into "small" MS4s (i.e., any discharge to an MS4 that is not composed entirely of stormwater with some exceptions, such as discharges from SPDES-permitted industrial sources and fire fighting activities). Implementation will include at a minimum:

- Creation of stormwater system maps to demonstrate a basic awareness of intake and discharge points of the systems.
- Attainment of the necessary authority to establish and enforce an ordinance, or other regulatory mechanism prohibiting illicit discharges.
- Developing a plan to detect and address illicit discharges.
- Reaching out to public employees, businesses, property owners, the general community, and elected officials regarding ways to detect and eliminate illicit discharges.

| B. Implementation of | Best N | C. Activities Planned for Upcoming Year | | | | |
|--|----------------------------------|--|---|---|--|--|
| Type in the management practices selected in your NOI | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. | | |
| and any additional ones that you worked | | | If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if | g r g | | |
| on. | VEC NO | | YES NO | | still a measurable goal, list in column C. | |
| ACTIVITES | 1123 | NO | | | | |
| Prepare an initial map of the stormwater discharges within the automatically designated areas of the Town. This map will include discharges of other MS4's entering the Town's MS4 within the mapped area. | X | | Waterbodies within the automatically designated areas have been mapped as part of the initial SWMP. Lake Carmel is the largest waterbody in the Town of Kent. The perimeter of Lake Carmel was examined for point discharges. 77 direct discharges into Lake Carmel were noted. | Map the 77 direct discharges into Lake Carmel. Expand the stormwater map to include the stormwater discharges within the additionally designated areas (NYCDEP watershed) of the Town. | | |

| B. Implementation of | f Best I | C. Activities Planned for Upcoming Year | | |
|--|----------------------------------|--|--|---|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| Obtain and review | YES X | NO | A model Illicit Discharge and Connection | Prepare and adopt an ordinance addressing |
| model ordinances addressing illicit discharges into the stormwater system. Also review regulations of Putnam County Department of Health (PCDOH) relative to illicit discharges. | | | Stormwater Ordinance was obtained from the USEPA and reviewed. The Putnam County Sanitary Code was reviewed relative to illicit discharges. Article III, Section 4 prohibits atmospheric discharge, surface discharge, discharge into any storm sewer or drain, or endangerment of any watercourse or waterbody by sewage or other deleterious liquid or matter. | Develop Town reporting policy for the public to report illicit discharges including failing septic systems, and coordinate investigation/correction with PCDOH. |
| Conduct initial training for Town employees (Highway Department, Fire Departments, and Building Department) regarding illicit discharges into the stormwater system. | X | | The Town of Kent Highway Superintendent has conducted an initial training of Highway Department employees regarding illicit discharges into any stormwater system. The Highway Department employees now look for illicit discharges throughout their daily operations. | Conduct training for Town employees following the adoption of an ordinance addressing illicit discharges. |
| , | | | | Review and assess first quartile of the Town MS4 for illicit discharges. |
| | | | | Identify source and eliminate all illicit discharges identified. |

MINIMUM MEASURE 4: Construction Site Stormwater Runoff Control

A. Narrative Overview:

Regulated municipalities are required to develop, implement, and enforce a program to reduce pollutants in stormwater runoff to "small" MS4s from construction activities that result in land disturbance of greater than or equal to one acre. Implementation will include at a minimum:

- Creating an ordinance or other regulatory mechanism to require erosion and sediment controls (E&SC), as well as sanctions to promote compliance.
- Creating procedures for municipal site plan review that incorporate consideration of potential water quality impacts
- Creating procedures for receipt and consideration of information submitted by the public.
- Creating procedures for site inspection and enforcement of control measures.

| B. Implementation of | f Best N | C. Activities Planned for Upcoming Year | | | | |
|--|----------------------------------|--|--|--------------------------------------|--|--|
| Type in the management practices selected in your NOI and any additional | Any done in the past year? | | the past | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| ones that you worked | | | describe why the task was not accomplished and, if | | | |
| on. | | | still a measurable goal, list in column C. | | | |
| | YES | NO | | | | |
| REQUIREMENTS | | | | | | |
| Obtain and review | X | | The NYS model Erosion and Sediment Control | Adopt amendments to existing Erosion | | |
| model ordinances and | | | Ordinance was obtained from the NY Standards | Control Ordinance. | | |
| draft amendments to | | | and Specifications for Erosion and Sediment | | | |
| existing Erosion | | | Control and reviewed/compared to the Town's | | | |
| Control Ordinance to | | | existing erosion control law. | | | |
| be consistent with | | | | | | |
| Stormwater General | | | | | | |
| Permit No. GP-02-01. | | | | | | |

| B. Implementation of | f Best N | C. Activities Planned for Upcoming Year | | |
|--|----------------------------------|--|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| Draft amendments to Site Plan and Subdivision regulations to appropriately coordinate stormwater management requirements with the amended Erosion Control Ordinance. | X | | The Town of Kent has in place an erosion control law which is required for any site plan or subdivision. The Town will consider additional amendments to their regulations. | Amended Erosion Control Ordinance shall include a requirement for the opportunity for public comment on construction plans. |
| Amended Erosion Control Ordinance shall define Town site inspection and enforcement authority. | X | | The Town Board has drafted an ordinance which defines the Town's site inspection and enforcement authority. | Adopt Ordinance which defines the Town's site inspection and enforcement authority. |
| | | | | Adopt amendments to Site Plan and Subdivision regulations. |
| | | | | Amended Erosion Control Ordinance shall include requirements for projects to establish an overall construction site waste management plan. |
| | | | | Establish and implement procedures for site inspections relative to project stormwater management. |

| B. Implementation of | Best N | C. Activities Planned for Upcoming Year | | |
|---|--------|--|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | the | one in past ar? | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| | | | | Develop information pamphlet addressing construction site stormwater runoff control for construction site operators. |
| | | | | Distribute information pamphlet addressing construction site stormwater runoff control for construction sites with all building permits and site construction permits. |

MINIMUM MEASURE 5: Post-Construction Stormwater Management

A. Narrative Overview:

Regulated municipalities are required to develop, implement, and enforce a program to address stormwater runoff from new development and redevelopment projects that disturb greater than or equal to one acre. Implementation will include at a minimum:

- Constructing community/site appropriate structural BMPs.
- Implementing community/site appropriate non-structural BMPs.
- Creating an ordinance or other regulatory mechanism to address post-construction runoff from development and redevelopment projects.
- Creating procedures for addressing long-term operation and maintenance of BMPs.

| B. Implementation of | f Best I | C. Activities Planned for Upcoming Year | | |
|--|----------------------------------|--|---|--|
| Type in the management practices selected in your NOI and any additional ones that you worked | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| on. | | 1 | still a measurable goal, list in column C. | |
| | YES | NO | | |
| REQUIREMENTS | | | | |
| Prepare preliminary inventory of water quality problem areas and pollutants of concern within the regulated MS4. | X | | A preliminary inventory of water quality problem areas and their respective pollutants of concern is provided in Section 2.2. | Develop strategies and prioritize structural and non-structural management practices to address Town MS4 water quality problems. |

| B. Implementation of | Best I | C. Activities Planned for Upcoming Year | | |
|---|----------------------------------|--|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | 50111 W 1110015 W 1110 G 0011) 1150 111 W 1110 1111 C 0 | |
| Identify stormwater discharges contributing to water quality problem areas within the Town's regulated MS4. | X | | Lake Carmel is the largest waterbody in the Town of Kent. The perimeter of Lake Carmel was examined for point discharges. 77 direct discharges into Lake Carmel were noted, including their location and pipe size. Specific water quality problem areas that have been identified as discharging to Lake Carmel are as follows: Barrett Hill Road North Lake Carmel (Beekman Drive) North Lake Carmel (Homestead Road) North Lake Carmel (Putnam Drive) Cottage Road Terry Hill Road Haviland Road Specific water quality problem areas which discharge to the Middle Branch Croton River (which discharges to Lake Carmel) are as follows: Longfellow Drive Concord Road to NYS Route 311 Montrose Drive | More detailed investigation shall be performed in these areas. In order to determine the source of pollution, and make future investments in solving these problems. |

| B. Implementation of | Best I | C. Activities Planned for Upcoming Year | | |
|--|----------------------------------|--|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| Obtain and review model ordinance and develop draft ordinance to regulate post-construction runoff from development. | X | | The USEPA's model ordinance for Post- Construction Stormwater Runoff Control was obtained and reviewed. | Adopt ordinance to regulate post-construction runoff from development contributing to the Town's MS4. |
| Develop management practice inspection and maintenance program for the Town's MS4. | X | | The Kent Highway Department is constantly monitoring the Town's MS4 infrastructure for any problem areas, system failure, illicit connections, etc. Kent received a vac-all truck approximately 18 months ago, and the truck is used daily for cleaning out drainage structures. Emergency clean-outs are performed on an asneeded basis. Street sweeping takes place annually from the end of March to December. The Kent Highway Department has reduced their percentage of salt during snow removal procedures. A 50/50 sand/salt ratio is now used. A computerized discharge system is to be | Implement management practice inspection and maintenance program for the Town's MS4. |

MINIMUM MEASURE 6: Pollution Prevention/Good Housekeeping

A. Narrative Overview:

Regulated municipalities are required to develop, and implement an operation and maintenance program that includes a training component and has the ultimate goal of preventing or reducing pollutant runoff from municipal operations. Implementation should include a combination of the following BMPs:

- Performing regular maintenance activities
- Compiling maintenance schedules.
- Performing long-term inspection procedures for structural and non-structural controls.
- Introducing controls for reducing or eliminating discharge of pollutants from areas such as roads, maintenance and storage yards, waste transfer stations, and municipal parking lots.
- Creating procedures for proper disposal of waste (i.e., dredge spoil, accumulated sediments, floatables, and other debris).
- Creating provisions to assess water quality impacts from new flood management projects.

| B. Implementation of | f Best N | C. Activities Planned for Upcoming Year | | |
|--|----------------------------------|--|--|--|
| Type in the management practices selected in your NOI and any additional ones that you worked on. | Any done in the past year? | | If YES, describe what measurable goals that were achieved and other accomplishments. If NO, and the item was checked off on your NOI, describe why the task was not accomplished and, if still a measurable goal, list in column C. | Describe SWMP activities that are planned for the next year and changes to selected management practices/measurable goals. |
| | YES | NO | | |
| REQUIREMENTS | | | | |
| Prepare preliminary inventory of Town operations contributing to water quality problems and pollutants of concern. | X | | A preliminary inventory of Town operations contributing to water quality problems and pollutants of concern is provided in Section 2.3. | Identify appropriate Best Management Practices (BMPs) to address Town operations contributing to water quality problems and pollutants of concern. The following management practices should be addressed: street cleaning, catch basin and storm drain system cleaning, hazardous and waste materials management, landscaping and lawn care, road salt storage, roadway maintenance, and Town owned septic system management. |

Municipality Name: Town of Kent 15 of 16
